

CABERNET SAUVIGNON VINEYARD SOILS OF THE NAPA VALLEY

The vineyards for our Nickel & Nickel Single-Vineyard Cabernet Sauvignons are, in many cases, just a mile or two apart, yet they grow wines of dramatically distinct characters. Factors such as site, rootstock and exposure contribute to these differences, along with the soil from which the vines grow. The images below show the various soils from each of the vineyards in the Napa Valley where we grow our single-vineyard Cabernets.

Hayne Vineyard
St. Helena, Napa Valley

C.C. Ranch
Rutherford, Napa Valley

Quarry Vineyard
Rutherford, Napa Valley

Quicksilver Vineyard
Rutherford, Napa Valley

State Ranch
Yountville, Napa Valley

Tench Vineyard
